# FROM THE DIRECTOR

Dear Members and Friends,

I am inspired by the remarkable support within our Chamber community in 2024. Despite being a small town, our business community's impact is extraordinary. With a 30% increase in membership since 2020, we've expanded our reach, from hosting joint events with neighboring Chambers to gaining valuable insights at national conferences and even exploring new horizons on our Annual Chamber Trip to Scotland.

As we look to the future, we recognize the need to adapt. Our operating budget has remained unchanged for a decade, and to ensure continued growth, we're exploring new revenue streams, refining member benefits, and leveraging technology to better serve you and our mission.

The Chamber exists to bridge businesses and the broader community, ensuring every member has the connections, resources, and support they need to thrive. Our tagline, "Where members support the businesses that support them," continues to guide our efforts as we work together to fuel our local economy.

Here's to a vibrant and collaborative 2025 filled with opportunities, connections, and success!

- Cindy Banks

## Add your events to the Chamber Website

Adding your events to the Chamber's Event Calendar can help with SEO (Search Engine Optimization)

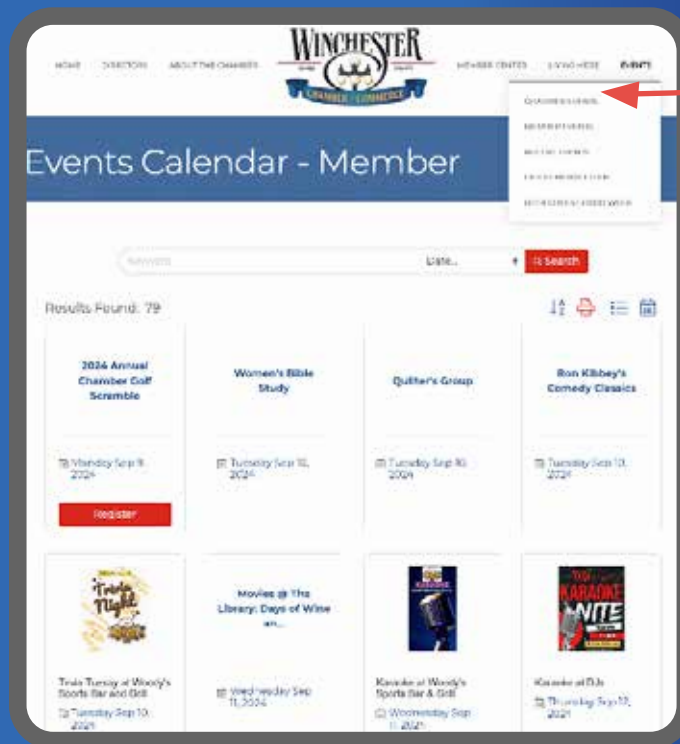

**Backlinks:** When you list your event on the Chamber's website, it often includes a link back to your own site. These backlinks from a reputable local organization can improve your website's authority and ranking on search engines.

**Local SEO Boost:** The Chamber's website is likely well-optimized for local searches. By associating your event with the Chamber's site, your event may rank higher in local search results, particularly for people searching for events or activities in your area.

**Keyword Relevance:** The event listing can include relevant keywords that help search engines understand what your event and business are about. This can improve the likelihood that your event appears in searches related to those topics.

**Citations:** Local citations (mentions of your business name, address, and phone number on other websites) are important for local SEO. When your event is listed on the Chamber's website with your business information, it helps reinforce these citations, which can boost your visibility in local searches.

Overall, listing your event on the Chamber's Event Calendar not only increases your event's visibility to the local community but also supports your broader SEO strategy, helping more people find your business online.
